Finding and Using Resource(s)

The Most useful Source to fing in [Territory]

Magnetic: Core flow movement(s)

Visible flow of energy sources.

Uses:

Fresh Water - Heat

Digging: Heat, Water, Sexing of Resouce

Quarry

Heat: Resouce and Containment

Measures.

Would have to include a Form Form the Quarry to Contain the Force. Mechanically Cycle steam or chemical. It would ignite or decy the core with an acid and stike. There is also the new idea of Hard shore Allignment. All bases on the Isotope + and Isotope - Collection and modification. Mechanical Element switch.

New Theory

To A Phospate Mineral Target Incoming to Re-route Computer Trajectory. To Over ride the fuel launch sequence. The Charge would read. Whole item. Blue sky Override. Target Origin and DESTROY!!!

Sounds like a nice Idea to accomplish this using blue sky and Super large Computation Grid. Progamme ID.

Collection of this resource. Survey of Land. Sky. Ability to charge phospate seeking Electronic. Soze of Charges to actual size of Threats.

Demolition and Collection of + Isotope - Isotope. Gold Diamond Silver PulP Trade dollar.

Stock manufacture of Items Needed to buid order Data base and Progamme ability. Color Dispaly and Physical override.
